This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

THE thirteen parts which this volume comprises have already been issued separately, and now appear in a collective form with a General Index. Since the publication of the various parts the figures contained in them have been subjected to careful revision. It is possible, however, that some errors may still remain uncorrected; if there be any such which come under attention information concerning their nature and position will be gladly received.

* Fire Brigade. ‡ Although no provision exists for disestablishing municipalities, Silverton is, practically, one no longer. No rates were levied for the year 1903-4, and no assessment made. The particulars given are for the year ended 1st February, 1897, the latest available. No information has been obtained in regard to the unimproved capital value; that given being an estimate only. § Singleton includes South Singleton. ¶ Street watering; local only. ‖ Year ended 3rd February, 1902. ** Including charges by contract. †† Year ended February, 1903.

NOTE.—The unimproved capital values are approximate only in the cases of Brewarrina, Hillgrove, Manilla, Narromine, Silverton, Warialda, Wrightville, and Wyalong.

NOTE.—For method of arriving at the Net Debt, see "Statistical Register" for 1902.

*In addition to this amount an annual sum of £53 11s. is payable on account of the interest on half the cost of construction of an artesian bore, which, however, remains the property of the Government.

† At Forbes, Hay, and Wilcannia the works were constructed under the supervision of the Municipal authorities, and the expenditure shown in the table is not the actual cost of the works, but the Government valuation.

Water Supply of Country Towns.—The Country Towns Water Supply and Sewerage Act and Amending Acts provide for the construction by the Government of waterworks and sewerage systems in municipalities which are outside the areas served by the Metropolitan and Hunter River Water Supply and Sewerage Boards. The cost becomes a charge against the municipality, carrying interest at the rate of 3½ per cent., and repayable by annual instalments over a period of not more than 100 years. Under special circumstances, the Government may remit part of the cost.

Though the Manly works were constructed under the Metropolitan Water and Sewerage Act of 1880, the more favourable terms of the Country Towns Act of 1894 were extended to them; hence their inclusion in this table to the 31st December, 1901, since which date they have been retransferred to the Metropolitan system.

Richmond has also constructed waterworks under the Act, but the control was subsequently transferred to the Metropolitan Board of Water Supply and Sewerage. (See Table No. 34.)

Campbelltown and Liverpool have each a separate water supply drawn from the main canal, particulars of which will be found in Tables Nos. 32 and 33.

In addition to the above, there are nineteen districts which are supplied by the Hunter District Water Supply and Sewerage Board. Information with respect to this Board to 30th June, 1903, will be found in Table No. 35.

The municipal districts of Broken Hill and Silverton are supplied with water from works situated at Stephen's Creek, which were constructed by a private company under a special Act passed in 1888.

The waterworks at Cobar, Junee, and Tumut were completed and handed over to the Municipalities subsequent to the 30th June, 1903.

nicipal Elections.—In all municipalities, except the City of Sydney, elections are held in the month of February, ditors and one-third of the aldermen being elected annually. All ratepayers, whether male or female, are entitled operty assessed at an annual value of, and under, £25 carrying one vote; £75, two votes; £150, three votes; £150, four votes. With a population between 500 and 1,000, a municipality may be divided into two wards; 000 and 4,000, three wards; over 4,000, four wards. When a new municipality is formed by the union of others, r of wards may be increased to six. North Sydney is the only one having more than four, as it was incorporated lgamation of St. Leonards, East St. Leonards, and Victoria, and the number of wards was increased to five. municipalities are set down as consisting of one ward.

e City of Sydney the elections are held every second year on the 1st December, unless otherwise determined by islation. Unlike those in the other incorporated districts, owners, occupiers, and lodgers occupying premises for and over have the right to vote.

NOTE.—These works were constructed under the Country Towns Water and Sewerage Act. The Municipal Council of Richmond administered the service till the 26th May, 1893, when it was temporarily transferred, pending legal powers, to the Metropolitan Board of Water Supply and Sewerage. The Board is much restricted in its management, as only premises owned by persons who have signed agreements to take the water can be rated. The accounts are kept separate from those of the Metropolitan Water Scheme.

No. 36.—Vessels incurring Pilotage Dues, also Vessels Entered from and Cleared to places outside New South Wales at each Port during 1901–3.

PILOTS AND PILOTAGE.—Appointments to the Pilot service are made by the Public Service Board, and all pilots are Government officers. Certificates of Exemption from Pilotage for the various ports of the State may be granted to British subjects who are *bonâ fide* masters of British ships employed in the Australasian, South Sea Island, or the whaling trade, on passing the necessary examination, provided they have been three times in and out of the particular port for which the Exemption Certificate is desired with their vessels as masters or chief officers. Masters of vessels who hold Certificates are not liable for pilot dues unless the services of a Pilot are obtained.

Vessels Entered and Cleared.—Vessels which entered from, or cleared to, places outside the State are entered by the Customs Office at the first port of call in New South Wales, and cleared at the port from which final departure is taken.

OTE.—The Department of Navigation subsidises tugs at the places mentioned in the above table for the purposes g vessels in and out of port or river. The tugs are not allowed to leave the station without the sanction of partment, and the master must endeavour to be in the vicinity when vessels are ready for sea, and in cases where are in actual danger he must promptly render assistance. The maximum rate for ordinary towing is fixed at registered ton with a minimum of £1 10s. Disputes arising with respect to special services must be settled by ion. The masters of tugs are required to take pilots off to vessels signalling for services of a pilot.

Sailing Vessels.

e number of passengers by sailing vessels is becoming smaller from year to year, owing to the time taken in the and the great decrease of the rates of steamer fares. Single first-class fares from Sydney to London are, however, as £35 to £40, but there are now only two or three sailing vessels trading to London which carry passengers.

No. 16.—Particulars relating to Conditional Purchases and Homestead Selections.

Land available for Conditional Purchase.—Lands held under the following forms of lease are not available for conditional purchase:—pastoral, homestead, conditional, scrub, snow-land, special, inferior, artesian well, residential, mineral, and auriferous; also, the area in the Western Division is not available for ordinary conditional purchase. The only lands that can be conditionally purchased are the unoccupied lands outside reservations and areas under occupation license and annual lease in the Eastern and Central Divisions, and lands under conditional lease, if not within reserves, may be applied for as conditional purchases by the holders thereof.

Divisions in which Land may be acquired.	Authority.	Limit of Area.	Price.	Remarks.
		CONDITIONAL PURCHASES—Ordinary Residential.		
Eastern ..	Acts 1884 and 1889 and amending Acts passed subsequent to the Act of 1884, including Act of 1895.	Maximum area, 640 acres; minimum area, 40 acres. The maximum can, however, be increased to 1,280 acres by converting a conditional lease into an additional conditional purchase.	£1 per acre—2s. per acre deposit, payable on making the application, and after an interval of three years, during which period no payment is required and interest is not charged, the balance, together with interest at the rate of 4 per cent. per annum, is payable by annual instalments of 1s. per acre. The whole of the balance may be paid at selector's option, if he has obtained a certificate of conformity, after a continuous residence of five years from date of application in the case of selections made prior to the Act of 1895, or after ten years if subsequent thereto. The survey fee, according to prescribed scale, must be paid at the date of selection.	The holder of an ordinary residential conditional purchase is entitled to a conditional lease up to three times the area of his other conditional purchase, provided that the total area, including the portion leased, does not exceed 1,280 acres. Under section 29 of the Act of 1895 the term of residence in connection with a new conditional purchase or a new additional conditional purchase in virtue of a conditional purchase under the repealed Acts or even under the Act of 1884 is increased to ten years from the date of application. Exceptions as to residence are detailed in section 30 of the Act of 1895.
Central ..	do ..	Maximum area, 2,560 acres; minimum area, 40 acres.	do do ..	The same provisions regarding a conditional lease as in the Eastern Division, excepting that the total maximum area is 2,560 acres.
		CONDITIONAL PURCHASES—Classified Areas.		
Eastern, Central.	Act 1890 .... do	Maximum and minimum areas same as for ordinary residential conditional purchases.	At such prices as specified in the notification, whether below £1 per acre or not. One-tenth of purchase money is payable on application, and each of the annual instalments (the second and subsequent of which shall include interest at the rate of 4 per cent. per annum on the balance of purchase money) shall be 5 per cent. of the price of the land.	Similar to those relating to an ordinary residential conditional purchase.
		CONDITIONAL PURCHASES—Ordinary Non-Residential.		
Eastern, Central.	Acts 1884 and 1889 and amending Acts passed subsequent to the Act of 1884.	Maximum area, 320 acres; minimum area, 40 acres.	The price per acre, deposit, and all subsequent instalments are double those prescribed for ordinary residential conditional purchases. The survey fee is the same as that for ordinary residential conditional purchases.	A non-residential conditional purchase does not entitle the holder to a conditional lease, and debars him from selecting at any future time.
		CONDITIONAL PURCHASES—Special Areas outside Population or Suburban boundaries.		
Eastern ..	Acts of 1884 and 1889.	The minimum and maximum areas are specified in each proclamation, but the maximum area cannot exceed 320 acres.	Thirty shillings per acre and upwards, the price being fixed by proclamation in the *Government Gazette*. One-tenth of the purchase money is payable on application, one-twentieth at the expiration of three years, and a similar amount each year subsequently until the balance of the purchase money, with interest at 4 per cent., has been paid.	This system was first introduced under the Act of 1884. The conditions to be fulfilled are similar to those of the ordinary conditional purchase. No conditional leases can be taken up in special areas, and no conditional lease of ordinary Crown Lands can be acquired by virtue of a conditional purchase within a special area.
Central ..	do ..	The minimum and maximum areas are specified in each proclamation, but the maximum area cannot exceed 640 acres.	do do	The same provisions as in the Eastern Division, with the exception that a conditional lease of ordinary land can be taken up by virtue of a conditional purchase within a special area.
		CONDITIONAL PURCHASES—Special Areas within Population or Suburban boundaries.		
Eastern, Central.	Act of 1889 ..	Maximum and minimum areas are specified in the proclamations.	The conditions of payment are specified in the proclamations.	Conditions as to residence, fencing, and other improvements are specified in the proclamations. Any lands within population or suburban boundaries which have been proclaimed special areas are available for special area conditional purchase.

No. 16.—Particulars relating to Conditional Purchases and Homestead Selections—*continued.*

HOMESTEAD SELECTIONS.			
Division.	Authority.	Limit of Area.	Conditions.
Eastern, Central.	Act of 1895	Fixed according to capabilities of land for the maintenance of one family, but no selection must exceed 1,280 ac.	The applicant may take possession immediately after lodging his application, but shall commence to reside on the selection within three months after the confirmation of the application, and thereafter continue for the first five years. The annual rent shall equal 1½ per cent. of the capital value during the first five years. At the expiration of that period a grant is issued, transferring the land in perpetuity to the lessee, on the payment annually of a rent equal to 2½ per cent. of the capital value. Provision is made for a revaluation of the selection by the Government every ten years. An applicant may appoint a deputy to fulfil the residential conditions during the five years prior to the issue of the grant, subject to the approval of the Local Land Board, but the applicant will be required to pay an annual rent equal to 3½ per cent. on the capital value during the before-mentioned period and effect greater improvements, but on issue of grant his residence on the selection must be continuous for such period, not less than 7 months in each year, as may be determined by the Governor.

No. 42.—Court of Claims.

Prior to 1831 all grants of public land were made upon the sole authority of the Governor. that date all public lands were directed to be sold. The so-called "grants" issued prior to 1831 only promises of grants, giving authority to take possession of the land, but not conferring any u law. In 1833 an Act was passed (4 Wm. IV No. 9) appointing and empowering three or Commissioners to hear and determine claims to grants of land. This Act was limited to two ' operation, but in 1835 was made perpetual by Act 5 Wm. IV No. 21, which has been repealed uperseded by Act 17 of 1898. One deed was issued during 1903; no claims were dealt with by Court during that year, but in one claim which was dealt with in the previous year, the report e Commissioners was forwarded to the Under Secretary for Lands with a view to issue of deed ant.

*This total of 120,838,314 acres is that obtained from the returns of occupiers of land. According to the Lands Depart- he total area of Crown Lands leased (excluding mining leases) on 31st December, 1903, was about 127,774,287 acres. er figures are, however, in excess of the actual area leased—probably by about 3 million acres—owing to the fact that s of land held under one form of lease, and in respect to which application has been made for transfer to another form, under both forms pending consideration of the application. This allowance reduces the area actually under lease, to 287 acres, and the difference of 3,935,973 acres represents holdings abandoned or for which no returns could be d.

—Large holdings extending into more than one county are returned in the county wher the homestead is situated.

Note.—The females engaged in agriculture according to the foregoing table number 5,948, and in dairying 12,331. The great majority of these (probably 4,000 in agriculture and 9,500 in dairying) were only partly employed the rest of their time being devoted to domestic duties. The census of 1901 shows 1,735 women engaged in agriculture and 2,285 in dairying.

Private Bores.—These bores are situated on private holdings and have been made at the sole cost of the owners. formation in the foregoing table has been obtained from the various owners and boring contractors, and not from measurement of the flows; it can therefore be only accepted as approximate.

Water Rights Act and Irrigation Trusts.—The Water Rights Act of 1902 vests all large natural supplies of in the Crown, and establishes a system of licenses for works of water conservation, irrigation, and drainage. Prior to sing of the Act such works on creeks and rivers, constructed by private individuals, were liable to be destroyed by any who considered their existence opposed to his interests. It is now illegal to interfere with any work for which a has been granted. The security provided under the Act is stimulating the construction of irrigation works of a better throughout the State, and up to the end of July, 1904, 1,234 applications for licenses have been received. Irrigation ments have been founded at Balranald, Hay, and Wentworth, and at the latter place pumping machinery has been d capable of supplying water to irrigate 1,500 acres.

No. 88.—Amount of Prospecting Vote, and how allotted, 1887–1904.

Prospecting Vote.—First Year.—The sum of £7,000 was voted for prospecting for gold in 1878, and in subsequent ns further small sums were at irregular intervals voted and expended. In accordance with a resolution of Parliament, egular amount has been voted each year since 1887, during which year it was confined to searching for gold. In the ceeding year the conditions were amended so as to embrace all minerals.

PART V.—MANUFACTORIES AND WORKS.

Commencing with the year 1896 the statistical returns have been compiled on a new basis, in order to secure uniformity with Victoria. Formerly an establishment where no machinery is used was included in the returns if at least five hands were employed therein; but on the present basis the minimum number of hands accepted in such factories is four. Also milliners, dressmakers, and tailors, formerly not enumerated, as well as home workers regularly employed in connection with factories are now included in the general total.

Ages.—The ages of 3,054 persons, concerning whom the Householders' Schedules merely disclosed that 321 were under age of 21, and 2,733 adults, have been distributed by a process of gradation among the other ages.

Education—Read and Write, and Read only in a Foreign Language.—Under the headings of Read and Write, Read only, the return includes those who have been educated in a foreign language only. Prior to 1891 this ormation was not obtained. Of those so returned in 1901, nearly 60 per cent. were members of the Chinese race.

Aborigines.—The Aborigines are not included for the years 1891 and 1901; but for 1871 and 1881, while the wandering Aborigines were passed over, those who were civilized or in communication with Europeans were enumerated, so that the totals for 1871 and 1881 include 983 and 1,643 Aborigines respectively. In the above table also those unspecified as to conjugal condition have been distributed by proportion amongst the other numbers.

* The number of persons shown in this Table as ministering to General Government does not represent t total number of persons employed by the Government. The principle of the classification is to include Governm officers performing special duties in the groups to which they are most nearly related. Thus, the Railway, and P and Telegraph officers are both classified with those engaged in Transport and Communication; Government Print Office employees are classified with others working in Books and Publications; and similarly, Government officers employ in connection with such services as Charity, Education, Agriculture, and Mining, also Civil Engineers, Surveyors, Archite Draftsmen, and Artisans in the Government workshops, and all others, are classified with the group to which they belong

* The number of women engaged in Agricultural and Dairying pursuits varies with the time of the year. Besides the 1,735 women, shown in this Table as employed in Agriculture at the Census of 1901, there were some 2,500 others employed, partly in connection with Agriculture and partly in domestic duties. The majority of these were relatives of the farmers, and appear in the classification as engaged in domestic duties, and therefore as dependents. Similarly, some 10,000 women who were engaged, partly in dairying and partly in domestic duties, are classified as performing domestic duties. If the women, partly employed in Agriculture and Dairying, be included with those mainly so employed, the total women engaged in Agriculture would be 4,267, and in Dairying, 12,156.

* The figures in this column represent distinct children who have attended a State school the whole or some pe of the year, children who may have received instruction at more than one State school during the year being counted once.

† The mean enrolment of distinct scholars and the average daily attendance being determined for each quarter o year, an average of the four quarters is taken, and the result is set down in this table.

Primary Schools.—Under the Public Instruction Act (43 Vic. No. 23), which came into force on 1st May, 18 is provided that the instruction imparted at Public Schools shall be absolutely unsectarian. "Secular instruction defined by the Act as including "general religious teaching as distinguished from dogmatical or polemical theology."

Compulsory Attendance.—The Act makes it obligatory upon the parents or guardians of all children bet the ages of 6 and 14 years (unless just cause of exemption can be shown), to cause such children to attend school for a pe of not less than 70 days in each half-year. The minimum age for admission of pupils has been fixed at 5 years.

Causes of Exemption.—The causes of exemption defined by the Act are:—That the child is being regularly efficiently instructed in some other manner; that from sickness or infirmity or from fear of infection or other unavoi cause there is inability to attend; that there is no State School within 2 miles by the nearest road, or that the child already been educated up to the standard of education required. Under this last clause, examinations for exem certificates are held at the annual inspection of the schools.

Training Schools for Teachers.—There are two Training Schools, Fort-street for males, and Hurlstone for females, the total enrolment for 1903 being 32 and 42 respectively. Persons who have completed their course as pupil-teachers are alone eligible for admission. Students who creditably pass examination for a classification of II A, are granted, on their passing the matriculation examination, scholarships at the University for twelve months, which may be conditionally renewed for the second year. The students are also given practical work under supervision in the Practising Schools and Kindergarten Department of the Model Public School, Fort-street. On completion of the course of training each student undergoes examination for a Classification Certificate.

Matriculated Students.—The total number of scholars and bursars who passed the Matriculation examination includes 29 who qualified at the Junior, and 8 at the Senior examination.

Scholarships.—In the High Schools, 50 scholarships are open for competition annually, viz., 30 in the Sydney schools, and 20 in the Maitland schools. A scholarship is tenable for 3 years, and entitles a scholar to a free grant of text-books and free education in a High School. In a few exceptional cases, scholarships have been made tenable in Superior Public Schools.

Bursaries.—Bursaries are available for admission to the Superior Schools, High Schools, or Sydney Grammar School. In the metropolitan and sub-metropolitan districts, 20 bursaries are open to competition, and in the country districts 12 bursaries, winners of which are eligible for free education at the Superior Schools, High Schools, or Grammar School of Sydney. For the Maitland Boys' High School 6 bursaries, and for the Maitland Girls' High School 6 bursaries are available. A bursary is tenable for 3 years, and entitles a scholar to a free grant of text-books and free education in the abovenamed Schools. When a bursar is compelled to board away from home, an allowance not exceeding £30 per annum is made. Bursars who live at home receive an allowance not exceeding £10 per annum.

Examinations.—Half-yearly examinations for scholarships and bursaries are held during June and December.

University Bursaries.—Twelve bursaries, 6 to boys and 6 to girls, tenable for 3 years at the Sydney University, are open to competition according to the position of candidates at the annual matriculation examination. Competitors must be under 18 years of age, and must have attended a State High School, a Public School, or as State Bursars the Sydney Grammar School, for the year preceding the examination. Bursars are entitled to a free grant of text-books and free education, together with an allowance not exceeding £20 per annum to those who need not board away from home, and not exceeding £50 per annum to those who must necessarily do so.

Schools and Departments.—The number of schools and departments in operation during 1903 was 2,862 and 3,084 respectively. Of these there were 2,797 schools and 3,019 departments open on the 31st December, 1903. With few exceptions all Schools below Class IV are "Mixed" Schools, the boys, girls, and infants not being separated into different departments.

Superior Public Schools.—To entitle a Public School to be designated a "Superior" Public School, at least 20 pupils must be eligible to join a fifth class. At the end of 1903 there were 129 Public Schools of Classes I to V, comprising 162 departments, classed as "Superior" Public Schools. In these schools instruction is given to the fifth class in Latin, French, and other subjects prescribed for the Senior and Junior University Examinations.

Kindergarten Schools.—There are three State Kindergarten Schools, the enrolment at which, in 1903, was 496 boys, 450 girls; total, 946. The average attendance was 297 boys, 246 girls; total, 543.

Subsidised Schools.—During the year 1903 there were forty-nine private schools subsidised by the State. The enrolment at these schools was 454, and the average attendance 356.

Finance.—The supervision of the financial affairs of the University is, subject to the direction and control of the Senate, entrusted to a Finance Committee consisting of the Chancellor, Vice-Chancellor, and four elected Fellows.

"Challis" Fund.—In 1880 the late Mr. J. H. Challis bequeathed his whole estate to the University, which, under the terms of the will, was transferred to that institution in September, 1889. The assets in Australia and England amounted to £208,224. The Senate has decided that the Fund shall be applied as permanent provision of income for educational uses. Through the agency of the Fund seven "Challis" Professorships and four "Challis" Lectureships have been established.

Other Foundations.—There are also the "Hovell" Lectureship, £6,000; the "Wentworth" Travelling Fellowship, now amounting to £2,384; and the Curatorship of the "Macleay" Museum, £6,000. In 1896 the University received a donation of £50,000 from Mr. P. N. Russell, to endow the Department of Engineering.

University Museums.—The "Nicholson" Museum of Antiquities, the "Macleay" Museum of Natural History, and the Museum of Normal and Morbid Anatomy, attached to the University, are accessible to the public under certain regulations.

NOTE.—The Library is open to the public free, and books may be borrowed without charge.

The Public Library of New South Wales.—The "Free Public Library" was established on the 1st October, 1869, the buildings and books of the "Australian Subscription Library," founded in 1826, were purchased by the Government. g the years 1886–7 considerable additions were made to the premises, a large portion being entirely rebuilt. The new ngs were opened in April, 1890. In 1877 the operations of the Library were extended by a Lending Branch being ed. Under certain simple regulations books may be borrowed by individuals, country Libraries, Mechanics' Institutes, roups of Students in Country Districts, free of charge. During 1903 the Library took control of the "Lighthouse ry," and now lends boxes of books to lighthouses of New South Wales. The Newspaper Room, formerly attached to the ence Library, was, in February, 1894, transferred to the Lending Branch. During 1895 the name "Free Public Library" hanged to "The Public Library of New South Wales." During 1899, Mr. D. S. Mitchell, M.A., made a first donation of volumes, with 50 valuable pictures, and intimated his intention of bequeathing the whole of his unrivalled Australian tion to the Public Library, together with an adequate endowment. This collection is to be kept separate and known "Mitchell" Library. The Lending Branch and Newspaper Room were removed in June, 1899, to improved quarters Queen Victoria Market Buildings, and the Lending Branch was closed on Sundays. In December, 1899, the Library corporated, and received a statutory endowment of £2,000 per annum for the purchase of books.

Offenders Probation Act of 1894 and Section 558 Crimes Act of 1900.—Under the provisions of these Acts any cted on the first offence, may be set at liberty on certain conditions instead of being sent to prison. Although is passed in the usual form, the Court has power to suspend its execution, upon the offender entering into a , with or without sureties, for his good behaviour, for a period of not less than twelve months.

es of the Act.—During 1903 one offender, a female, who was at liberty under the provisions of the First Offenders t, had her recognizances forfeited.

: 1903 there was one person, convicted in the higher court, liberated under the provisions of Section 558 of ıct of 1900, against whom a previous conviction for an indictable offence, to wit, an assault on a female, was

ımber of persons convicted in the higher courts, and liberated during 1903 under the provisions of Section rimes Act of 1900, who had previous convictions for indictable offences recorded against them, numbered 6; ingle convictions previously recorded, in each case the offence being stealing. Two persons had two previous ecorded against them, one having been convicted on two occasions of fraudulent appropriation, and the other nd fraudulent appropriation.

* Writs issued.—The number of writs issued includes those for claims subsequently settled by the parties.

† Judgments signed.—The amounts for judgments signed include taxed costs in all cases where the judgments have been completed at the end of the year, and relate to undefended and tried cases only.

Judges of Supreme Court.—There are seven Judges attached to the Supreme Court—the Chief Justice, and the six Puisne Judges. The Chief Justice and four Puisne Judges devote attention chiefly to Common Law and criminal cases, another Judge to Equity, another to Bankruptcy and Probate, and another Puisne Judge is Judge of the Divorce Court.

Terms.—There are four Terms during each year, the dates of which are fixed by the Judges, as are also the days the Court Sittings commence, the duration of Vacations, and the dates for holding Circuits.

Vice-Admiralty Court.—The Chief Justice was appointed Judge Commissary of the Vice-Admiralty Court by the Admiralty, and one of the Puisne Judges acts as Deputy. The Supreme Court has no jurisdiction in this Court.

Master in Equity.—The office of Master in Equity in New South Wales combines the duties of "Accountant General," "Registrar," "Head of the Records and Writ Office," and of "Taxing Officer," as well as those performed in England by the Judges in Chambers through their Chief Clerks.

Funds held in Trust by Master in Equity.—The Trust moneys received by the Master in Equity are invested in various ways; the bulk of the funds, however, is placed to the Government Account, and either invested in securities or used in the "General Banking Account" in the Bank of New South Wales.

Interest earned by Trust Funds.—Cash and Treasury Bills bear interest at the rate of 3 per cent. per annum; Debentures, 3 to 5 per cent.; Fixed Deposits, 3 to 4 per cent.; mortgages, 4½ to 6 per cent.; and Funded Stock, 4 per cent.

Grounds for which Divorces were granted, see Table 86.

First year of Divorce Act.—Prior to the passing of the Matrimonial Causes Act of 1873 the Supreme Court N.S.W. had no jurisdiction in divorce. **The existing Act** was assented to on the 9th May, 1892, but did not come into force, owing to an informality, till the 6th August. During 1893 an amending Act was attached.

Jurisdiction.—In addition to granting Decrees for Dissolution of Marriage, for Judicial Separation, for Nullity of Marriage, for Restitution of Conjugal Rights, and for Jactitation of Marriage (no petitions for which have as yet been filed in this State), the Court also deals with questions of alimony, custody, maintenance, and education of children, damages against an adulterer, and settlements of property.

A suit *in formâ pauperis* cannot be proceeded with without a Judge's order, and to obtain such it is necessary to produce the certificate of the Registrar and an affidavit of the party applying as to means of living, and, where a suit is by a wife, the means of her husband, and that he or she (after the payment of just debts) is not in possession of property worth £25, except wearing apparel and household furniture.

Decrees Nisi.—After a Decree *Nisi* has been granted, it can be made absolute at any time subsequent to the date *fixed* by the Court for that purpose. Neither party can re-marry until after fourteen days from the date of the Decree *Nisi* having been made absolute.

Grounds for Divorce.—The chief grounds for divorce under the old Act were adultery since marriage, on the part wife, and adultery and cruelty on the part of the husband. In addition to the foregoing causes, petitions for divorce w be granted on any of the following grounds:—

Husband v. Wife.—Desertion for not less than three years; or by refusing to obey an order for restitution of al rights; habitual drunkenness and neglect of domestic duties for a similar period; being imprisoned for three and upwards, and still in prison, under a commuted sentence for a capital crime, or under sentence to penal servitude en years and upwards; attempt to murder or inflict grievous bodily harm, or repeated assaults and cruel beatings one year previous to presentation of Petition.

Wife v. Husband.—Adultery, provided that at the time of the institution of the suit the husband is domiciled in outh Wales; desertion for not less than three years; or by refusing to obey an order for restitution of conjugal rights; al drunkenness for the same period, together with cruelty or neglect to support; being imprisoned for three years wards, and still in prison, under a commuted sentence for a capital crime, or under sentence to penal servitude for years and upwards, or having within five years undergone sentences amounting in all to not less than three years; pt to murder or inflict grievous bodily harm, or repeated assaults and cruel beatings during one year previous to tation of Petition.

Period of Domicile.—To entitle either party to seek relief on any one of these grounds he or she must have been iled in the State at the time of instituting the suit for three years and upwards, and should not have resorted to ate for the purpose of the suit. When a wife seeks for a decree on the ground of three years desertion, if she was iled in New South Wales when the desertion commenced, she shall not be deemed to have lost her domicile by reason husband having thereafter acquired a foreign domicile.

Official Assignees.—There are three Official Assignees appointed by the Executive Council, with the approval of dge, and when, in the opinion of the Judge, an addition to their number is required, others can be appointed. In tate the Official Assignee receives 2½ per cent. commission on the amount realised, and 2½ per cent. on the amount dends declared. The Judge may also grant special remuneration. Each Official Assignee is obliged under the 98th of the Act to furnish the Registrar with quarterly statements showing the transactions in each estate.

***Bankruptcy Estates Account.**—Each Official Assignee pays all moneys received by him to the Registrar in Bank- who places the amount to the credit of the "Bankruptcy Estates Account." In special circumstances the Official ee may be allowed to open an account with a Bank. When the Official Assignee's account and plan of distribution in te has been confirmed, the Registrar draws a cheque on the Bankruptcy Estates Account in favour of the Official ee, to cover dividends and unpaid charges included in the account and plan. In cases of urgency the Registrar may t moneys to the Official Assignee, pending the confirmation of an account and plan.

Criminal and Quasi-Criminal Appeals.—Appeal from Magistrates' Courts to Quarter Sessions is a remedy for bringing the Orders and Convictions of Justices to the review of Quarter Sessions. The Court is Judge of law as well as of fact. The right of appeal exists in all cases of convictions or orders by Magistrates excepting orders made under the Seamen's Act, 1898, and in cases of adjudication to imprisonment for failure to comply with an order for payment of money, and for finding sureties, &c.

Appeals to Full Court.—Appeals against orders or decisions of Judges of the Supreme Court are made, with few exceptions, to the Full Court. The Act provides that no Judge of the Supreme Court shall sit on the hearing of an appeal from, or on a matter to set aside, any judgment, order, decree, ruling, or decision made by him. This Act also provides that the Court on the hearing of such appeals or motions shall consist of three Judges.

Acts under which Registered.—Mortgages on Real Estate are registered either under the Deeds Registration Act o. 22 of 1897), or the Real Property Act (No. 25 of 1900).

Amount of Consideration incomplete.—In many instances the amounts lent upon mortgage by banks are not ed, but simply the words "valuable consideration" or "cash credit" inserted in the deeds. As this occurs frequently n the properties mortgaged are evidently of great value, the absence of the amounts must materially affect the returns, , as a consequence, the amounts under the head of "mortgages" are incomplete. It must be borne in mind, therefore, the "Amount of Consideration" stated applies only to cases in which the specific amounts are stated in the deeds, ther the amounts be the sums actually advanced or not.

The Discharges do not include foreclosures, which, if not formally registered as discharges, are nevertheless tgages cancelled. The returns of discharges are therefore incomplete, and the discrepancy between the mortgages racted and discharged is largely due to this cause.

* This sum is represented by Treasury Bills current in excess of requirements, to the amount of £37,584, less of £13,000 advanced by the Government to the Penrith Council in 1893, £12,900 of which is yet to be recovered.

† Exclusive of £100,000 paid off Treasury Bills issued 1901–2.

‡ See Note to Table No. 3, *re* Treasury Bills issued during 1901–2.

NOTE.—It will be seen from the first part of the above table that the total Revenue for the two years 1895–6 an was £9,361,639 and £9,338,976 respectively, while the total Expenditure for the same periods, including redempt cancellation of Treasury Bills, was £9,918,751 and £9,726,645 respectively. The detailed accounts published in the St Register give the Revenue as £9,394,611 and £9,469,694, and the Expenditure as £9,776,331 and £9,531,779, which w increased to £9,926,331 in 1895–6 by the redemption of Treasury Bills, and to £9,831,779 in 1896–7 by the redempt cancellation of bills. The differences consist chiefly in the exclusion from the above table of temporary advances re during the same year in which they were made.

London Agent.—Since 1883 all financial operations connected with the issue and inscription of Stock have be[illegible] ducted by the Bank of England. The Bank charges ½ per cent. per £100 Stock on all loan issues, and in addition s[illegible] receives £200 per million for the inscription and management of Stock, including the payment of the half-yearly divi[illegible]

Local Agent.—The Bank of New South Wales, since the middle of 1893, has transacted all the local b[illegible] connected with the "Government Banking Account," and also acts as Financial Agent for the State in Victoria. [illegible] business carried on includes the payment of the half-yearly dividends on local Debentures and Funded Stock, and all [illegible] transactions connected with the Consolidated Revenue Fund, Trust Funds, and General Loan Account. The Tr[illegible] however, in local loan issues, directly conducts the operations connected with the issue of New South Wales F[illegible] Stock and Treasury Bills. During 1895-96 a current account was opened at the City Bank of Sydney; and during [illegible] at the Commercial Banking Company of Sydney, Limited, and these accounts are still being operated on.

"Old Loans Account."—The £450,000 loan floated "Under various Acts" (commonly known as the "Tailings Loan") was floated during 1871 for the purpose of adjusting the amounts short and over raised under Act 17 Vic. No. 34, and all subsequent Acts to 34 Vic. No. 2. These loans constituted what is termed the "Old Loans Account," which formed part of the Consolidated Revenue Fund till 1891, when the account was finally closed by the balance at the end of that year (£132,326 0s. 4d.) being transferred to the "General Loan Account" under the provisions of the Loan Act 54 Vic. No. 33, as amended by Act 55 Vic. No. 35.

"General Loan Account."—From 1871 a new system of treating the proceeds of Loans was adopted. A "Loan Fund" was established for each Loan floated on and after that date. The £374,900 Loan of 1871 (35 Vic. No the first one dealt with under the new conditions. This practice was continued till 1879, when, under the authority "Loan Fund Amalgamation Act" passed in that year, the "Nine Separate Loan Funds" established during 1871-9, and all subsequent loans, were amalgamated into one "General Loan Account.' The Act declares that of the Amalgamated Funds shall be used for any other purpose than Loan Services.

* The decrease in capital shown in the City and Suburban Tramways is due to the transfer of rolling stock to of the other lines, while in the case of the North Shore Cable line, the falling-off is due to the land taken for the Leonards Railway being transferred to the Railway Capital Account.

† 60 chains converted from cable to electrical traction. ‡ Excess of working expenses over earnings.

§ The decrease in length of line and capital expenditure is due to conversion of part of the steam system to electrical ion.

‖ Now entirely converted into an electric system.

Metropolitan Fire Brigades Board.—The Board consists of six members, viz., the chairman, appointed by the Government, and five elected members, one of whom is appointed by the Municipal Council of Sydney, one by the other Municipalities within the proclaimed area, two by the Fire Insurance Companies carrying on business in New South Wales, and one by the Volunteer Fire Companies. The elected members retire every two years, but are eligible for re-election. Towards the annual outlay the Government, the Municipalities, and the Fire Insurance Companies each contribute one-third. The Municipalities contribute *pro rata* to the assessed annual value of ratable property in their respective districts, and the Fire Insurance Companies proportionately to the net risks held on properties within the Metropolitan District. Sydney Harbour is outside the jurisdiction of the Board.

Ship Fires.—For the purpose of dealing with ship fires the Sydney Harbour Trust use the steamer "Plutus," which is fitted with a compound tandem surface condensing fire engine capable of throwing 2,500 gallons of water a minute. The pump is fitted for six hoses 2½ inches in diameter, and one hose 3½ inches in diameter. The steam scow "Powerful" is fitted with a fire-pump capable of delivering water from four lines of 2½-inch hose. Both of these vessels are always under steam, and in readiness for any emergency.

Partial Payment of Volunteer Firemen.—At the beginning of the year 1902 partial payment of Volunteer Firemen was substituted for the former system of subsidising Volunteer Fire Brigades. Considerable amounts are annually spent by the Board in the provision and repair of fire appliances, for uniforms and equipment, for the erection and repair of stations and for horses.

Volunteer Fire Companies.—Companies situated within the Metropolitan district are registered at the office of the Board and are subject to the inspection and orders of the Superintendent of Metropolitan Fire Brigades. All the hose and other appliances are the property of the Metropolitan Fire Brigades Board.

Fire-alarm Telephones.—Telephones connected with the fire stations are placed in fire-alarm boxes in the important localities of the city and suburbs. The telephonic system at the end of 1903 consisted of 147 telephones, 8 telephone shutter-boards, and 250 telephone fire-alarms. The length of telephone and telephone fire-alarm wire was 236 miles. Most of the volunteer fire stations, theatres, music halls, &c., are also in direct communication with the Metropolitan Fire Brigade stations. The various police stations are also in communication, and public offices, hotels, wharves, business firms, and private houses, that are connected with the General Post Office Exchange, can transmit calls for fires at any time.

Constitution Act.—The "Constitution Act, 1902," being an Act to consolidate the Acts relating to the Constitution, was assented to on 18th August, 1902. The Legislature, subject to the provisions of the Commonwealth of Australia Constitution Act, have power to make laws for the peace, welfare, and good government of New South Wales, provided that all Bills for appropriating any part of the public revenue, or for imposing any new rate, tax or impost, shall originate in the Legislative Assembly.

Legislative Council.—No maximum number of members of the Legislative Council is fixed by the Constitution Act. In November, 1904, the number of members was sixty-one. They receive no allowance for expenses, but are privileged to travel free over the Government railways and tramways in the State. Although the appointment is for life, a member forfeits his seat by absence from two successive Sessions without leave, by becoming bankrupt, and on account of other reasons, and he may voluntarily resign at any time. The President of the Legislative Council receives a salary of £1,370 per annum, and the Chairman of Committees £470 per annum.

Legislative Assembly.—During the year 1904 New South Wales was divided into ninety electorates, each of which has one member to represent it in the Legislative Assembly. Every Legislative Assembly shall exist and continue for three years from the day of the return of the writs for choosing the same and no longer, subject, nevertheless, to be sooner prorogued or dissolved by the Governor. Each member (not holding office as a Minister, Speaker, or Chairman of Committees) is entitled to receive the sum of £300 per annum by way of reimbursement for expenses incurred in the discharge of Parliamentary duties. Members also travel free over the Government railways and tramways in the State, and are provided with official stamped envelopes for the free transmission of correspondence through the post. The Speaker of the Legislative Assembly receives a salary of £1,370 per annum, and the Chairman of Committees £740 per annum.

NOTE.—Sydney is the headquarters of the fleet, and ranks as a first-class naval station.

Naval Agreement Act, 1903.—This Act provides that the Naval Force on the Australian Station shall consist of not less than 1 armoured cruiser, 1st-class, 2 2nd-class cruisers, 4 3rd-class cruisers, 4 sloops, and of a Royal Naval Reserve of 25 officers and 700 seamen and stokers. The base of this force shall be the ports of Australia and New Zealand, and their sphere of operations the waters of the Australia, China, and East Indies Stations. One ship shall be kept in reserve and three others partly manned shall be used as drill ships for training the Royal Naval Reserve, the remainder shall be kept in commission fully manned. The drill ships and one other vessel are to be manned by Australians and New Zealanders paid at special rates. They are officered by officers of the Royal Navy and Royal Naval Reserve. Eight nominations for naval cadetships are given annually to the Commonwealth and two to New Zealand. The agreement is for ten years. An annual charge of £200,000 is paid to the Imperial Government by the Commonwealth, and £40,000 by New Zealand.

No. 45.—The Royal Naval House.

The Royal Naval House in Grosvenor-street, Sydney, was erected exclusively for the accommodation of the men of British warships. It was built in 1889, at a total cost, inclusive of land, of £25,000, contributed by citizens and the Government of New South Wales. The House contains large reading and smoking, dining, and billiard rooms, besides a gymnasium, and other accessories. Sleeping accommodation can be found for 300 men. The institution is self-supporting, aided by an annual grant from the Lords Commissioners of the Admiralty and the Government of New South Wales, which grants are devoted to maintaining the House during the absence of the warships from Sydney. About 38,000 sleepers are booked in the House annually, and it is used by the men of the fleet in every other way very freely.

It is the only establishment of its kind in Australasia. The House is controlled by a Superintendent, a Committee elected by the Trustees from among their number, and a few Naval Officers, also an Honorary Secretary and Treasurer.

Thermometers.—The thermometers are exposed in a shed 11 feet square, of which the sides are 5 feet 6 inche and enclosed to within 18 inches of the ground with open lattice-work. The roof is conical, rises to 13 feet above the g and is covered with louvres close enough to keep out rain. Repeated experiments have been made to determi relation between temperature in this shed and that shown by a swing thermometer, both night and day, with the resu there is no difference. It is, therefore, assumed that the shade obtained is a satisfactory one.

Rain-gauge.—The rain-gauge is round, 8 inches in diameter, and with rim 15 inches above ground. The pluvio results are from a gauge of the same size, 9 ft. above ground, and recording on the same paper as the anemometer. similar gauges, placed on the ground 6 ft. apart, are used; they differ very little, and not always the same way larger record is taken.

Coal-mines—

The rates of pay given here were those ruling in 1903 for work actually done. It does not follow that the miner and other hands were able to secure anything like regular employment at these rates.

*This represents gold received by escort at the Mint for the Sydney banks, which, after being assayed by the latter institutions, is returned for coinage; the Mint authorities are, therefore, unable to state the place of origin.

† These values are approximate only, the actual figures being unobtainable; but the totals given, namely, £836,978 [illegible], £682,986, £597,325, and £586,949 are correct. An average price of about £3 11s. 8¾d. has been assumed in arriving at the value of the gold from each district during 1903. It is probable, however, that the prices varied to some extent.

Value per ounce.—The value per ounce of pure gold (24 carat), at the mint rate of £3 17s. 10½d. per ounce for gold of standard or 22 carat fineness, is £4 4s. 11½d. The average value per ounce of gold referred to in the above Table is about £3 11s. 8¾d., and is for rough or unrefined gold (that containing alloys).

Light Gold and Silver Coins.—Light gold coins in parcels of not less than £50 nominal value are received at Sydney Mint and recoined free of charge, but depositors are required to bear the loss by abrasion. The worn silver drawn from circulation is forwarded to England for recoinage.

Seignorage.—The difference between the nominal value of silver and the average price per standard ounce paid by London Mint represents the seignorage or gross profit. The coinage or nominal value of silver per standard ounce is 5s. and the price per ounce paid by the London Mint during 1903 averaged 2s. 0¾d. The difference, 3s. 5¼d., represents seignorage accrued; against this, however, must be placed the loss to the Imperial Government by purchase of worn at its nominal value.

No. 20.—Deposits in Banks of Issue, 31st March, 1904.

Preferential Capital represents Fixed Deposits capitalised on and after the dates of reconstruction of the institutions. The holders of these deposits after a certain number of years become ordinary shareholders, and, with one exception, the preference, either as regards capital or dividends, ceases. (See Supplementary statement).

Inscribed or Perpetual Stocks.—Formerly the practice of issuing stocks was confined to one institution—the Union Bank of Australia (Limited); but, since 1893, the English, Scottish, and Australian Bank (Limited), the Australian Joint Stock Bank (Limited), and the Queensland National Bank (Limited), have issued Inscribed or Perpetual Stocks.

Extended or Deferred Deposits.—Under the terms of reconstruction, the eight reconstructed banks operating in New South Wales were empowered to gradually liquidate the Fixed Deposits by payments in instalments extending over a series of years. The Commercial Banking Company of Sydney (Limited), the National Bank of Australasia (Limited), and the Bank of North Queensland (Limited), have released the whole of the extended fixed deposits, and some of the other institutions have prepaid part of their deposits.

SUPPLEMENTARY STATEMENT.

Bank.	Particulars.
	PREFERENTIAL CAPITAL.
Commercial Bank of Australia (Limited)	The preferential shares have priority over ordinary shares, both as to dividends and capital, the preference being continuous in each case.
National Bank of Australasia (Limited)	The preference as regards dividends is continuous, but as regards capital it ceases after the preference shareholders have received ten half-yearly dividends of at least 7 per cent. per annum.
London Bank of Australia (Limited) ...	The preference as regards capital is continuous, but as regards dividends it ceases after the preference shareholders have received five yearly dividends of 7 per cent. per annum.
	INSCRIBED OR PERPETUAL STOCKS.
Australian Joint Stock Bank (Limited)...	Interest 3½ per cent. per annum, to be increased to 4½ per cent. if profits allow. Repayable at option of Bank after 1907, on six months' notice being given.
Queensland National Bank (Limited) ...	Interest 3½ per cent. per annum. Redeemable out of surplus profits on six months' notice being given. Principal immediately repayable if interest not paid, or Bank wound up.
Union Bank of Australia (Limited) ...	Inscribed Stock Deposits ... These are on the same footing as the ordinary fixed deposits.
English, Scottish, and Australian Bank (Limited).	Two classes of perpetual stocks are in existence, viz., 4 per cent. Debentures and 4½ per cent. Inscribed Stocks. The 4½ per cent. Inscribed Stock is divided into preferred and deferred, the former bearing a fixed rate of 3 per cent., and the latter a dividend of 3 per cent. from the profits (if any), and, if earnings allow, 4½ per cent. after placing £15,000 annually to Reserve Fund. The Deferred Inscribed Stock ranks after the Preferred Inscribed Stock, and both of these after the Debenture Stock, Terminable Deposits, and New Fixed Deposits.

From 12th May, 1894, deposits for 3 months were discontinued. † The extra ½ per cent. was paid by two of the banks only during these months.

The Bills of Exchange Act (51 Vic. No. 2) was passed in 1887. Under this measure the law relating to bills of ange, cheques, and promissory notes was codified. The form and interpretation of these instruments are specified, and act comprehensively defines the legal position of the bank, the drawee or payee, the drawer or payer, and the transferee the transferrer, &c.

Note.—The Banks' Exchange Settlement, or Bankers' Pool, was established on the 18th January, 1894, in order to facilitate the settlement of exchange of notes, cheques, &c., between the 13 banks of issue transacting business in New South Wales. The "Pool" consists of £700,000 in gold, the contribution to which by each bank is regulated by the volume of the business transacted. The gold, which is placed in the hands of three Trustees, is deposited in safes in the vaults of three of the banks, and cannot be circulated or disturbed. No bank is permitted to allow its daily credit balance to fall below 25 per cent of its fixed contribution to the £700,000.

5.—Liabilities and Assets of Registered Companies receiving Money on Deposit, June quarter, 1904.

ıpanies furnishing Quarterly Returns of Local Assets and Liabilities.—Since 1841 the Banks of Issue obliged to furnish quarterly returns of local Assets and Liabilities; but it was not till 1879, under an Act passed ır, that other registered Companies receiving money on deposit in New South Wales were required to furnish ıtatements similar to those of Banks of Issue.

thirteen Companies which furnished quarterly statements, and which are included with the 824 Companies in Table No. 26, practically represent all the institutions which are dependent on outside capital, exclusive of ıablished prior to 1879.

ıpanies not furnishing Quarterly Returns of Local Assets and Liabilities.—Companies formed prior d receiving money on deposit, are not required to furnish quarterly statements of local Assets and Liabilities. The such, however, is very small. Registered Companies which do not receive money on deposit are not subject to ons of the Act which requires the publication of the Quarterly Returns.

No-Liability Mining Companies.—The first Act for the regulation of these Companies (44 Vic. No. 23) was passed March, 1881, and continued in force till the 2nd October, 1896, on which date the "No-Liability Mining Companies Act" Vic. No. 15) was passed, and all subsequent transactions were subject to the new provisions. The latter has now been erseded by Act, No. 40, 1899, which consolidates all previous enactments relating to Companies. It provides in section that an annual balance-sheet shall be filed with the Registrar of Joint Stock Companies. The memorandum of association st be signed by not less than seven intending members. The acceptance of a share or shares in these Companies does not der a person liable to pay contributions or calls thereon. No dividends, however, are payable upon any share on which all is due and unpaid, and shares upon which a call has remained unpaid fourteen days after it is due become absolutely elted thereby, without any other proceeding being necessary.

Companies operating outside New South Wales.—Under the old Act, Companies whose places of operation (or ies) were outside New South Wales could not register in the State. Under the new Act this has been altered, and stern Australian and other mining Companies are now being registered in New South Wales.

Fees.—The fee for registration under the Act is £1.

Other Lines.—In addition to the above there are several branch lines connected with the coal and other mines in the State, but as regards length they are unimportant. During 1890, legislative sanction was obtained for the construction of a private line from the flux quarries at Tarrawingee to the tramway system of the Broken Hill mines, a distance of 4 miles 7 chains. During 1901 the line was purchased by the Government for £15,000, and the Railway Commissioners entered into an agreement with the Silverton Tramway Company for the latter to work the line during the following five years, paying 3 per cent. per annum on the capital outlay to the former for the concession.

Private Railways under Construction.—During 1893 authority was obtained for the construction of two private lines, viz., Menindie to Broken Hill, in the Western District, and Rosehill to Dural (Simpson's), in the Parramatta District. The latter was opened for traffic, under the control of the Railway Commissioners (the Government having purchased it), on the 1st August, 1901, as far as Carlingford, a distance of 4 miles 41 chains. The total length of the line when completed will be 9 miles.

Standards.—The Weights and Measures Consolidation Act (No. 19 of 1898) repealed the original Acts (3 Wm. IV. No. 4, and 16 Vic. No. 34). Under the provisions of the existing Act, the standard Imperial Weights and Measures of Great Britain are declared to be the standards for New South Wales. The Act also provides that all articles sold by weight must be sold by Avoirdupois, except gold, silver, platina, diamonds, or other precious stones, which are to be sold by Troy weight, and drugs, which, when sold by retail, may be sold by Apothecaries' weight.

Inspectors.—The Inspectors of Weights and Measures administer two Acts, viz., the Bread Act (No. 33, 1901) and the Weights and Measures Act (No. 19, 1898). The Sydney Coal Delivery Act (No. 65, 1901) only applies within the Metropolitan District to a radius of 5 miles from Macquarie-place. All inspectors must be appointed by a Bench of Magistrates. In the country districts the persons selected are generally Sergeants of Police, who, however, are not subject to any control beyond the provisions of the Weights and Measures Act, and consequently no records are available as to material dealt with.

	£		£
For examining Weights and Measures ...	64	For examining Troy Weights	5
„ Weighing Machines ...	120

Fees paid into Treasury.—The fees for testing weights and measures are fixed by the Act, but for examining scales and testing weighing machines, weighbridges, and Troy weights the fees are fixed by the Under Secretary for Finance and Trade. The amounts received in the Metropolitan area are paid into the Treasury, but those collected in the country are retained by the inspectors.

Prosecutions.—The prosecutions in the Metropolitan area during 1903 by the inspector numbered 26, of which 11 were instituted under the Weights and Measures Act, 13 under the Coal Act, and 2 under the Vagrancy Act. The total amount of fines and costs of Court during the year was £29.

***Coal Mines Regulation Act (60 Vic. No. 12).**—Under the provisions of clause 42 of this Act, the inspectors of weights and measures under Act 16 Vic. No. 34 must examine all weights, scales, balances, &c., used in coal mines, at least once in every six months.

No. 18.—Causes of Insanity of Patients Admitted to Hospitals for the Insane, and Licensed Houses, 1901–1903.

Number of Causes of Insanity.—Number of Patients.—These "Causes" are taken from the statements in the papers received with the Patients on admission, and are verified or corrected as far as possible by the Medical Officers. The "predisposing" and "exciting" causes are both enumerated in all cases where the predominating causes could not be distinguished, so that the aggregate of the totals for each of these years exceeds the total number of patients yearly admitted.
